## WATTYL HAS A PROUD HERITAGE OF MAKING QUALITY, HIGH PERFORMANCE PAINTS & COATINGS

**Over the decades, Wattyl has built an enviable portfolio of brands and a valuable knowledge base of experience across a broad spectrum of substrates.**

Our brands and our involvement with high profile projects are the result of a strong commitment to research and development. This investment means we can manufacture products of the highest quality, designed to deliver superior application, a professional finish and committed support to our partners.

**Today, Wattyl is an iconic brand offering professional paint solutions, ensuring success across these segments:**

- Residential
- Commercial
- Industrial

Our manufacturing plants, distribution network and logistics, supported by world-leading coating expertise and technology help to provide best-in-class performance, durability and aesthetics.

## ***SHERWIN-WILLIAMS®***

Maintaining our position as a leader in innovation has been greatly enhanced by the support of parent company, Sherwin Williams.

Over the last 150 years Sherwin Williams has built a reputation for product excellence, investing millions in research and development. We'll be putting this to good use to ensure Wattyl remains a formidable force well into the future, for our people and our customers.

# WHY WATTYL?

With a proud heritage of innovation, WattyL delivers high performance coatings to protect and enhance every project from interior, exterior and texture, to protective, marine and specialty finishes.

## Specialised Solutions

- WattyL manufactures a comprehensive range of solutions, from industrial to high traffic environments, for both interior and exterior.
- A coating solution for almost every application and budget, made for Australian and New Zealand conditions and market requirements.
- A range of specification selector options to make choosing the right coating system easier.

## Environmental Performance and Accreditation

WattyL is committed to global best practice, environmental performance and safe manufacturing, with the aim to reduce air pollution, material use and energy consumption.

Our products comply to leading industry associations and certification systems; including coatings solutions meeting Green Star, GECA and ECNZ requirements.

### Colour

- Wattyl's COLOUR DESIGNER® colour palette offers an integrated range of market relevant colours to complement any project whether residential or commercial, new or repaint.
- Wattyl makes colour specification easy, with downloadable colour palettes for BIM applications, colour imaging and sample services, custom colour matching, and precision tinting for colour accuracy.

### Support

- Wattyl Assist provides comprehensive support for all enquiries relating to colour, products and technical support.
- Specifications accessed via Natspec for Australia, and Masterspec for New Zealand.
- Tailor made specifications to suit project needs.

### Warranties

Wattyl warrants that our products, correctly applied according to specifications, will not flake, peel or blister.

Warranty periods depend on types of coatings specified, substrate type and location of surfaces being coated.

# HOW TO SPECIFY THE RIGHT PAINT AND COATINGS FOR THE RIGHT AREAS

Not all paint is created equal. It's important to consider factors that influence product selection such as; aesthetics, substrates, environment, design, durability, maintenance and sustainability.

## INTERIOR WALLS/CEILINGS

Charles Perkins Centre

## EXTERIOR CONCRETE/TIMBER

Colgate Palmolive Apartments

## EXTERIOR TEXTURE

### I.D ADVANCED

Our interior range is hard-wearing and durable offering excellent cleanability, washability and stain resistance.

I.D Advanced Total Protection Technology™ now delivers increased levels of protection, with antimicrobial and low VOC properties.

Available in Matt, Low Sheen, Satin and Ceiling White

Green Star Compliant

### SOLAGARD

A tough and durable paint which offers excellent aesthetics and protection for concrete, timber and metal building exteriors.

Solagard's Total Protection Technology™ provides complete protection against cracking, peeling, blistering and flaking. Its high performance polymers and durable pigments provide resistance against chalking and colour fading in the extremes of sun and weather.

Available in Matt, Low Sheen, Satin and Gloss

### GRANOSITE

A range of texture coating systems that offers a variety of flexible builds, from a low-build smooth stipple, to a medium-build bag and paint, and a high-build stucco look to provide long-term asset protection.

In particularly aggressive environments, such as coastal areas or major cities with high pollution, Granosite minimises maintenance and maintains asset value.

Available in 16 texture options

Choosing a paint that doesn't perform well for a specific area can lead to costly mistakes. That's why it's important to understand the different features, benefits and limitations of different paints and coatings and to be actively involved in the specifying process. Wattyl's comprehensive product range is designed to make specifications easy.

## DOORS & TRIMS

## ARCHITECTURAL STEEL/METAL

## WOODCARE

### AQUA TRIM

A 100% acrylic interior and exterior trim range.

Its aqua-tough technology provides the speed and ease of water-based technology in a tough, durable enamel coating. This low odour, low VOC range is for use on interior and exterior surfaces, including skirting boards, architraves, doors, window sills and general woodwork.

### POLY U

Wattyl's Poly U high performance polyurethane finishes is designed to deliver excellent durability, as well as long term colour and gloss retention.

The two-pack polyurethane technology ensures high-durability and protection performance on structural steel and metal structures in any environmental condition.

### ESTAPOL

Estapol's Interior polyurethane and Flooring range is extremely tough, durable, flexible and hard-wearing.

The interior range comes in a clear finish designed for use on all interior timber surfaces whilst Estapol Flooring provides a highly durable low maintenance clear gloss finish in a one-pack system, designed for easy application on all types of timber floors.

Available in Satin and Gloss

Green Star Compliant

Available in Satin, Gloss, Metallic, MIO and Anti-Graffiti Clear

Available in Gloss Clear

## SERVICES AND SUPPORT

We understand that specifiers need support understanding the performance of paint when specifying on projects. That's why we provide a range of services and learning programs to ensure a positive customer experience.

### • Specification Writing

Specification service tailored to project requirements; ensuring correct surface preparation and products are recommended based on substrate type, location and environmental conditions.

### • Technical Advice

Access to technical support on products, specifications, application and technical matters.

### • Wattyl Assist

Dedicated customer care hotline for enquiries relating to colour, products and technical support.

### • Continuous Professional Development (CPD)

List of learning topics for specifiers/designers that add value to their profession.

Contact Wattyl Assist to arrange an appointment.

### • BIM Solutions

Adding Wattyl colours to your projects have never been easier. Wattyl New Zealand offers BIM Solutions for Archicad, Revit and Sketchup programs.

Downloadable content files are available on [colourdesigner.co.nz](http://colourdesigner.co.nz)

BIM Solutions for Wattyl Australia will be available very soon.

### • Wide Distribution Network

With over 300 distribution outlets in Australia and over 20 outlets in New Zealand, the Wattyl network offers:

- an extensive range of products and accessories
- expert advice
- accurate tinting
- reliable delivery

## CASE STUDY

# COLGATE PALMOLIVE FACTORY APARTMENTS

## BALMAIN, SYDNEY NSW

The Colgate Palmolive buildings in Balmain are one of the most notable warehouse/factory conversions in Sydney.

Dating back to 1923, production at the factory was slowly wound down from 1970 and conversion to apartments was completed in 1997. In 2016, a complete building interior and exterior repaint, matching to the six existing original colours was commissioned.

A building with such prestige and heritage deserved only the best products. WattyI's range of premium quality products were chosen for its excellent durability and serviceability, and most importantly its suitability and performance at waterfront locations.

# CASE STUDY

## KARMASEA RESORT COMPLEX

### ALEXANDRA HEADLANDS, MAROOCHYDORE QLD

Karmasea is an exclusive 5-Star Maroochydore holiday apartments, a short distance from Mooloolaba Sunshine Coast. The apartment complex consists of two four-storey buildings, and required interior and exterior paint refurbishment.

Due to the building's proximity to the coast, a robust and durable coatings system was specified to ensure maximum performance.

### PRODUCT FEATURED:

<b>Trims:</b>	Wattyl Aqua Trim*
<b>Exterior:</b>	Wattyl Solagard®
<b>Texture:</b>	GranolImpact
<b>Balustrates:</b>	Wattyl Protective Coatings
